

SIMPLE ORGANISATIONAL CHART 2012

- At AlphaFence we recognise that the customer is King, and our organisation and activity is focussed upon delivering high quality products and services to our customer – hence his position at the top of our hierarchy.
- Below the customer are our site installation teams who have direct day-to-day responsibility for the delivery of our services on site. Quality and the overall impression of our organisation depends upon their on-site performance and interaction with the customer.
- At the bottom of our model is the office team who, it is recognised, work in support of the installation teams, providing direction, policies, procedures, training, administration and management support to ensure that we provide a high quality service, safely.
- The Managing Director is at the bottom of the model as his role is to provide resources and support to the entire organisation. He is in turn supported by our external partners.
